[2464]

Christian M. Beni (Complainant) manages rental property in South Lake Tahoe. He objects to Avista's practice of estimating usage when an account is closed. Because Avista does not have a tariff rule that expressly allows it to estimate usage between scheduled meter reading dates, the Commission requires Avista to refund \$78.23 to Complainant, the amount in dispute. Complainant also seeks an order from the Commission requiring Avista to read meters whenever there is a name change on an account, and to never shut-off service when an owner has signed an Owner's Application For Service with the utility. The request is denied and this proceeding is closed.

- 22** C01-11-022 - Bill E. Clarkson and Frances C. Slate, dba Silk Purse Properties vs. Pacific
[2473] Gas and Electric Company (PG&E).
Complainants, electricity customers of PG&E, challenge the "baseline" energy usage level set for the common area of their 38-unit apartment building at 1 Excelsior Court in Oakland, California. They seek an increase in the common area baseline allocation from 7.7 kilowatt hours (kWh) per day to 117.8 kWh per day. This decision dismisses the complaint without prejudice, because pending Commission Rulemaking 01-05-047 is addressing the "common area" baseline levels for all customers in Complainants' position. 29 **C01-07-034 - Mike Knell, dba JTR Publishing vs. Pacific Bell Telephone Company (Pacific)**
[2483] **and AT&T Communications of California, Inc. (AT&T).**

This decision finds that AT&T violated Pub. Util. Code § 2891.1 by publishing Complainant's residential number in directory assistance and on the Internet and did not fully credit Complainant for listings problems. Otherwise, Complainant's allegations against AT&T and Pacific concerning service quality, communicating with Pacific and AT&T in writing, and restricting long distance service lack merit and/or are barred by the applicable statute of limitations. Complainant's appeal is denied, but inaccuracies in the Presiding Officer's Decision (POD) are corrected and the POD is modified as necessary. This proceeding is closed.

[2485] **A98-01-014 - San Diego Gas & Electric Company (SDG&E).**
For authority to implement a distribution performance-based ratemaking mechanism. A95-06-002, A96-10-038 - Related matters. There is a merger savings credit of \$124 million for 2003 due in September 2003, with a 100 percent allocation to customers of the two utilities. Based on the anticipated Southern California Gas Company (SoCalGas) noncore transportation rate increase in January 2004, the pass-through impact to SDG&E gas customers is \$15 million and \$83.6 million to SoCalGas customers. This decision authorizes the two utilities to credit the merger savings to their gas balancing accounts to avoid transportation rate volatility that would occur if customers received a one-time bill credit in September 2003 only to then experience a significant gas rate increase on January 1, 2004. It will provide gas transportation rate stability. These proceedings are closed.

83 A01-02-030 - Southern California Edison Company (SCE).

[2186] This decision denies the application of SCE to recover in distribution rates, Administrative and General (A&G) and General and Intangible Plant (G&I) expenses that have been booked in the Transmission Revenue Requirement Reclassification Memorandum Account (TRRRMA) established in 1998 pursuant to Res E-3544. TRRRMA was established to give SCE an opportunity to recover costs that the utility had classified as transmission-related, but which the Federal Energy Regulatory Commission (FERC) declined to include in transmission rates. In the proceeding that resulted in Opinion 445, FERC declined to include approximately \$24 million of SCE's annual A&G and G&I costs in transmission rates because FERC concluded that its traditional labor ratio allocation methodology should be used rather than the multi-factor allocation methodology advocated by SCE. This decision concludes that the A&G and G&I costs at issue are not eligible for recovery in distribution rates because SCE has failed to offer any proof that the costs are both reasonable and distribution-related, as Res E-3544 requires. This proceeding is closed.

101a [2366] ALTERNATE TO ITEM 1866

This alternate finds that under the New Regulatory Framework (NRF), Verizon has provided excellent customer service. Pacific Bell has provided generally good service, but several of its operations suffer from poor service quality. The alternate reaches these conclusions through a statistical examination of the direct measures of service quality provided by Pacific Bell and Verizon to this Commission and to the FCC. The alternate further finds that Verizon and Pacific Bell developed different service quality records during the NRF period, but that both show an improving trend in service quality. This evidence casts doubt on the proposition that NRF systematically decreases the quality of customer service.

This decision grants the request of the City of Richmond to prevent removal of the wigwag warning devices (wigwags) at the Richmond Avenue crossing (Crossing) by The Burlington Northern Santa Fe Railroad Company (BNSF), because BNSF did not apply for or receive Commission approval of the work on the Crossing that includes removing the wigwags. BNSF may not undertake any work on removing, changing the type, or adding to the automatic warning devices at the Crossing until it has received approval from the Commission. This proceeding is closed.

114a ALTERNATE TO ITEM 2596

[2598]

President Peevey's Order to Item 2596 - This decision denies the request of the City of Richmond to prevent removal of the wigwag warning devices at the Richmond Avenue crossing (Crossing) by The Burlington Northern Santa Fe Railroad Company (BNSF). In addition, the decision explicitly authorizes BNSF to resume work on the Crossing that includes removing the wigwags. This proceeding is closed.
